

Chair of the Diabetes Research and Clinical Practice Guidelines Committee

I am an accomplished academic leader and pediatric endocrinologist with over 25 years of experience in clinical research, medical education, and healthcare leadership. I currently hold the position of Full Professor of Pediatrics at King Saud bin Abdulaziz University for Health Sciences and Consultant in Pediatric Endocrinology at King Abdulaziz Medical City, Riyadh.

I have held several senior administrative roles, including President of Medical Education in the MENA region, Vice President of Postgraduate Education and Academic Affairs, Dean of the College of Medicine, and Chair of multiple high-level committees related to research governance and strategic planning.

In the field of pediatric Diabetes and Endocrinology, I have led national and regional initiatives in clinical research and education. My extensive publication record includes over 70 peer-reviewed articles. As current Chair of ASPED's Endocrine Research Committee and former Chair of the Pediatric Endocrinology Fellowship Scientific Committee at the Saudi Commission for Health Specialties, I have demonstrated a consistent commitment to advancing research standards and clinical practice.

My extensive experience in leading research programs and developing clinical guidelines positions me strongly to contribute to ASPED's strategic mission in this new leadership role.
