

Salwa Abdelbagi Elhassan Musa

MD, MRCPCH, MHPE, PETCA Fellowship

- Consultant Pediatric Endocrinologist at The Medical City (MCMSS), Oman, and Assistant Professor of Pediatrics at Al-Neelain University, Sudan.
- She holds multiple leadership roles and has excellent communication and network within many regional and international societies, including ASPED, ASPAED, GPED, CLAN, ESPE, and ISPAD.
- She has actively contributed to the Arab Society for Pediatric Endocrinology and Diabetes (ASPED) and served as ASPED Sudan representative and a Member of the ASPED Endocrine Research Committee since 2018, and the Deputy Chair of the ASPED Education Committee since 2022.
- She leads the DSD/CAH Focus Group in the African Society for Pediatric and Adolescent Endocrinology (ASPAED) and contributes significantly to research collaborations across the region.
- Locally, she serves as the General Secretary of Sudan Society for Pediatric Endocrinology and Diabetes, Clinics' Supervisor for Sudan Childhood Diabetes Association, and Sudan Coordinator for Life for a Child Program (LFAC). She also leads the Sudan Pediatric Endocrinology Fellowship Program Training Committee and is an Executive Member of the Sudan National Research and Ethics Committee. She has an active collaboration with FMOH, WHO Sudan, and the EMRO region.
- Dr. Salwa has authored several publications and leads multiple research activities in partnership with regional and international institutions. Her key interests include pediatric adrenal disorders and the advancement of Diabetes care in resource-limited and humanitarian settings, with a strong focus on research, education, and advocacy.
